YLANG YLANG LIPOSOMED-C NEW SERIES

Repair care.

SHAMPOO • HAIR CREAM • HAIR STYLING MOUSSE • TWO PHASE HAIR CONDATIONER • HAIR SERUM • HAIR MASK

YLANG YLANG

It contains various components that nourish the scalp and hair strands, with natural antiseptic and sebum-balancing properties. It nourishes and strengthens the hair roots, which helps the hair appear fuller and more voluminous.

LIPOSOMED C

It promotes collagen synthesis, a key component of hair structure. It strengthens the hair and repairs all damage from the scalp to the ends.

HERBAL KERATIN

It is a protein derived from plants with restorative and strengthening properties to support hair health. It protects the hair from the harmful effects of heat styling, chemical treatments, and the sun.

VITAMIN E

It strengthens the hair follicles by increasing blood circulation, thus protecting the hair strands from damage.

ARGAN OIL

It is rich in antioxidant fatty acids and various nourishing components. It is effective in repairing split ends and enhances the hair's shine and vitality.

8D HYALURON NEW SERIES

Mois- turizing care.

SHAMPOO • HAIR CREAM • TWO PHASE HAIR CONDATIONER • LIQUID HAIR CONDITIONER • HAIR MASK

8D HYALURON

With 8 different types of hyaluronic acid in its formula, water molecules penetrate the epidermis layer, keeping the hair moisturized throughout the day. Test results show that it increases moisture in the scalp by 90% within an hour.

NIACINAMIDE

It increases moisture in the hair, making it shinier and fuller. It also improves the hair's elasticity and strength.

ALMOND OIL

Due to its natural oil properties, it moisturizes and softens the hair. It also supports hair growth.

OMEGA 6

Omega 6 fatty acids, including coconut oil, have a significant effect on nourishing and moisturizing the scalp.

MILK PROTEIN NEW SERIES

Vitamin complex care.

SHAMPOO • TWO PHASE HAIR CONDATIONER • HAIR STYLING MOUSSE • HAIR MILK

MILK PROTEIN

Milk protein consists of two main proteins, casein and whey. These proteins contribute to moisturizing, strengthening, and improving the overall health of the hair. It is used as part of a daily hair care routine.

AMINO COMPLEX

It strengthens the hair and maintains moisture balance by repairing the texture on the hair's surface. It improves the overall structure of the hair.

ARGININE

Arginine, a precursor of nitric oxide in the body, is vital for hair growth. The nitric oxide produced by arginine helps open potassium channels in hair cells. As a result, better-nourished hair grows faster.

ASPARTIC ACID

Aspartic acid, which is naturally present in the body, is one of the building blocks of protein. It promotes hair growth and has various functions that improve the overall health of the hair.

VITAMIN B, C

These effective vitamins help strengthen the hair and give it a healthy appearance.

CAFFEINE GINSENG NEW SERIES

Anti-hair loss care.

SHAMPOO • TWO PHASE HAIR CONDATIONER • HAIR TONIC • HAIR SERUM • HAIR MASK

CAFFEINE

Caffeine, which has a direct effect on hair roots, is effective in preventing hair loss and promoting growth. It stimulates cell metabolism in the hair roots, reactivating the hair follicles.

GINSENG

It has antioxidant and anti-inflammatory properties that strengthen hair roots and reduce hair loss. By nourishing the hair follicles, it prevents hair loss and supports the growth of thicker and stronger hair.

FENNEL OIL

It is rich in antioxidants and vitamins, including vitamins A, C, and B. It supports healthy scalp growth and reduces hair loss.

BIOTIN

Also known as vitamins B7 and H, it is a vitamin that strengthens the structural integrity of hair. By nourishing the hair follicles, it helps reduce hair loss. It not only makes the hair stronger but also increases its thickness. According to analysis results, after 2 to 4 months of use, a 20% reduction in hair loss and a 50% improvement in the health and strength of new hair were observed.

LAURAL OIL

It is rich in vitamins and antioxidants, and contains iron, calcium, and magnesium. It plays an important role in hair and scalp health. By cleansing the hair of dirt, oil, and bacteria, it helps nourish the hair follicles.
